WILLIAMS LAKE CAMPUS

Williams Lake is a long-time ranching and farming community with an economy based on area resources such as forestry and mining. TRU Williams Lake has the only ranching program in BC, which focuses on regenerative agriculture.

About 36,000 people live in the city and surrounding region, where the cost of living is low and people know their neighbours. Williams Lake has an expanding hospital and extended-care homes, so there is a demand for university-trained healthcare workers.

The campus boasts small class sizes, usually between 15 and 20 students, depending on the program. There are benefits to such an intimate educational setting; faculty get to know their students and the campus is safe, friendly and close knit.

Visit our website for an accommodation list near campus. TRU Williams Lake is located in a residential area and there is housing within walking distance of campus.

Students can expect to pay between \$700 and \$1,000 per month for rent. There are buses, but they don't run as regularly as bus systems in larger centres, so most residents rely on cars for transportation.
