As long as you meet prerequisite requirements, you can normally take most undergraduate courses offered at UC. A few areas have courses which have limited entry.

UC will seek pre-approval for the courses you list with your online application so that you will know before arriving which courses you can take.

For questions about how your UC courses will transfer to your home university degree, please consult with the Study Abroad office at your home university.

*Note: Before leaving home, check that your courses can be credited to your home university degree.*

They provide an independent assessment of your complaint and will either investigate your concerns or advise what you can do next. ## Hands-on learning

Keen to go beyond the classroom as part of your Study Abroad semester? As a UC Student, you'll have a once-in-a-lifetime opportunity to undertake an internship or engage in hands-on study.

### Internships at UC

Gain international work experience and apply your analytical skills in PACE295 internship, UC's for-credit real-world internship course.

Internship students work with a local organisation or business on a special project, under the supervision of a specialist lecturer.

Work can be completed throughout the semester and each project has measurable milestones.

Past interns have worked in areas as diverse as food sustainability, GIS mapping, film-making, social entrepreneurship, media and communications, and many more.

### Enterprise in practice

INOV290 is a for-credit course that allows students to complete a project for a start-up venture, local business, social enterprise, or a student club. This project will enable you to apply your academic skills and knowledge to a practical project.

The course is taught from and supported by the staff at the Centre for Entrepreneurship (UCE), which also offers mentoring, seminars, and development bootcamps to students, to encourage entrepreneurial discovery and experimentation.

Every student intending to purchase Studentsafe-University Insurance is covered by the Studentsafe-University policy from the time they leave home (up to 31 days prior to enrolment).

So, if you intend to enrol at UC, you do not need to purchase your own insurance before you leave home.

The cost of this insurance will be added to your enrolment fees. The policy covers transit stopovers, but does not cover stopovers regarded as holidays.

### Pre-existing medical conditions

Pre-existing medical conditions are not automatically covered by Studentsafe-University Insurance. These are medical or physical conditions that you have before you enrol in a plan, and can extend to conditions you were aware of, but did not seek treatment for.

If you require additional cover for a pre-existing medical condition with Studentsafe-University, you need to apply for cover by completing a medical risk assessment form online.

If you have a pre-existing medical condition and you intend to purchase another University-approved policy, you need to check whether your pre-existing condition is covered.

## Purchasing private medical and travel insurance

If you do not want to purchase Studentsafe-University Insurance you must arrange an alternative approved insurance plan. A number of insurance plans are available that meet the minimum requirements for international students.

### Accident Insurance

The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents, and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs.

## Feedback from previous Study Abroad students

### Christina, Germany

'The MAORI165 Māori course was the most interesting class because it gave me the opportunity to learn about New Zealand's history and culture. For me, this was one of the reasons of going abroad: learning about another culture. I recognised a lot of what I had learned on my travels throughout the country, and appreciated that.'

### Richard, USA

'New Zealanders truly have a strong passion for the sustainability of the Earth. I have done four Great Walks, ice-climbed Fox Glacier, and mountain-biked around the South Island, plus I've done my share of kayaking, surfing, and white water rafting. I have bungy jumped the Auckland Bridge and the Ledge in Queenstown. I skydived over Wanaka, and shark cage dove in Stewart Island.'

### Laura, Germany

'Through being involved with a lot of different activities and meeting people with different opinions and backgrounds, I've discovered how diverse UC is. I am in class with people from all over the world every day, and it makes for interesting discussions and really broadens your horizons, and gets you thinking about ideas.'

### Gabriel, Brazil

'There's nowhere better than the University of Canterbury for bringing together the best professors and professionals in the field. The University has a wide range of research in construction and I decided to be part of this group of researchers.'

### Hayley, USA

'The mid-semester field trip for my Ecology class was an experience I would not have been able to have at my home university. Doing field work in Arthur's Pass was a great experience that gave me a taste of what it's really like to do research in a natural environment.'

### Zach, USA

'The professors and lecturers seem more passionate about students learning, rather than delivering everything that is required. It really seems like they take the extra step.'
